

## Awareness centres early warning meetings

### 2026-2027

Early warning meetings for awareness centres take place every six weeks throughout the year.

The meetings provide an opportunity to share any trends, concerns or issues that SICs are seeing within their own countries. This could include any public interest stories, e.g. media coverage about what children and young people are doing when they are online (risks and opportunities), any relevant research or policy/regulation.

In addition, the meetings serve as a space for SICs to provide an update on any DSA related work that they are involved in. E.g. what is being done to promote the DSA in schools, how SICs are working with their DSCs, if SICs are or are planning to apply to be, trusted flaggers and any other progress being made with DSA tasks under their contracts.

All meetings are recorded and a summary can be found in the [BIK community](#) (login first).
