SAFER INTERNET MONTH

We organized activities for various audiences throughout the month.

1. Teacher training: Is internet not a place for children?

February **10** and **18**

A discussion on the risks children face on social media and the arguments for banning social media for individuals under the age of **13** or **16**

Approximately **600** teachers and education professionals were reached

Useful resources (in Lithuanian):

[Ar vaikams ne vieta socialiniuose tinkluose?](#) ir [Skaitmeninės etikos centras rekomenduoja](#)

2. Conference “Safer internet: we talk, learn, improve”

March 5.

The event had more than 3500 views on YouTube and Facebook.

[Recording](#)

3. Conference „Internet without a mask – mission (im)possible”

The Lithuanian Parliament Committee on Economic Affairs organised a conference on the safety of children and youth online. Eglė Tamulionytė, a representative of the Helpline - Vaikų Linija, delivered a presentation titled "Between the Lines: Bullying in the Digital Age."

DRAUGIŠKAS INTERNETAS WEBSITE

Visitors during the SID day: **3676**

Visitors during the SID month: **26265**

Visitors at all project partner websites during the SID day: **10337**

Visitors at all project partner websites during the SID month: **96022**

DRAUGIŠKAS INTERNETAS SCHOOL CONTEST

My social life online

School contest started on **January 21** and ended of **February 10**

For the contest, we invited participants to submit creative works about what young people do on social media
107 works were submitted

About **300-400** school pupils worked on the submissions (alone, with classmates, with or without teachers)
48 schools participated from around Lithuania including the national minority schools

The six schools that submitted the highest-rated projects were rewarded with an interactive lesson on artificial intelligence and identifying disinformation held at their schools, after which the students tried out the "Escape Disinfo" escape box game, where they applied the knowledge they had just acquired
