TESE – Thesaurus on Education Systems in Europe

Glossary on education

Projection of growth rates of the population in the 5-9 age group between 2000 and 2010, and between 2000 and 2020

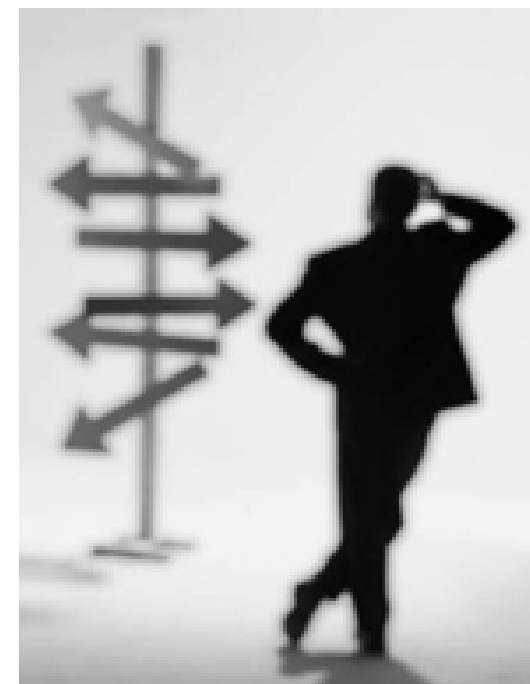

Source: Eurostat, Population Statistics

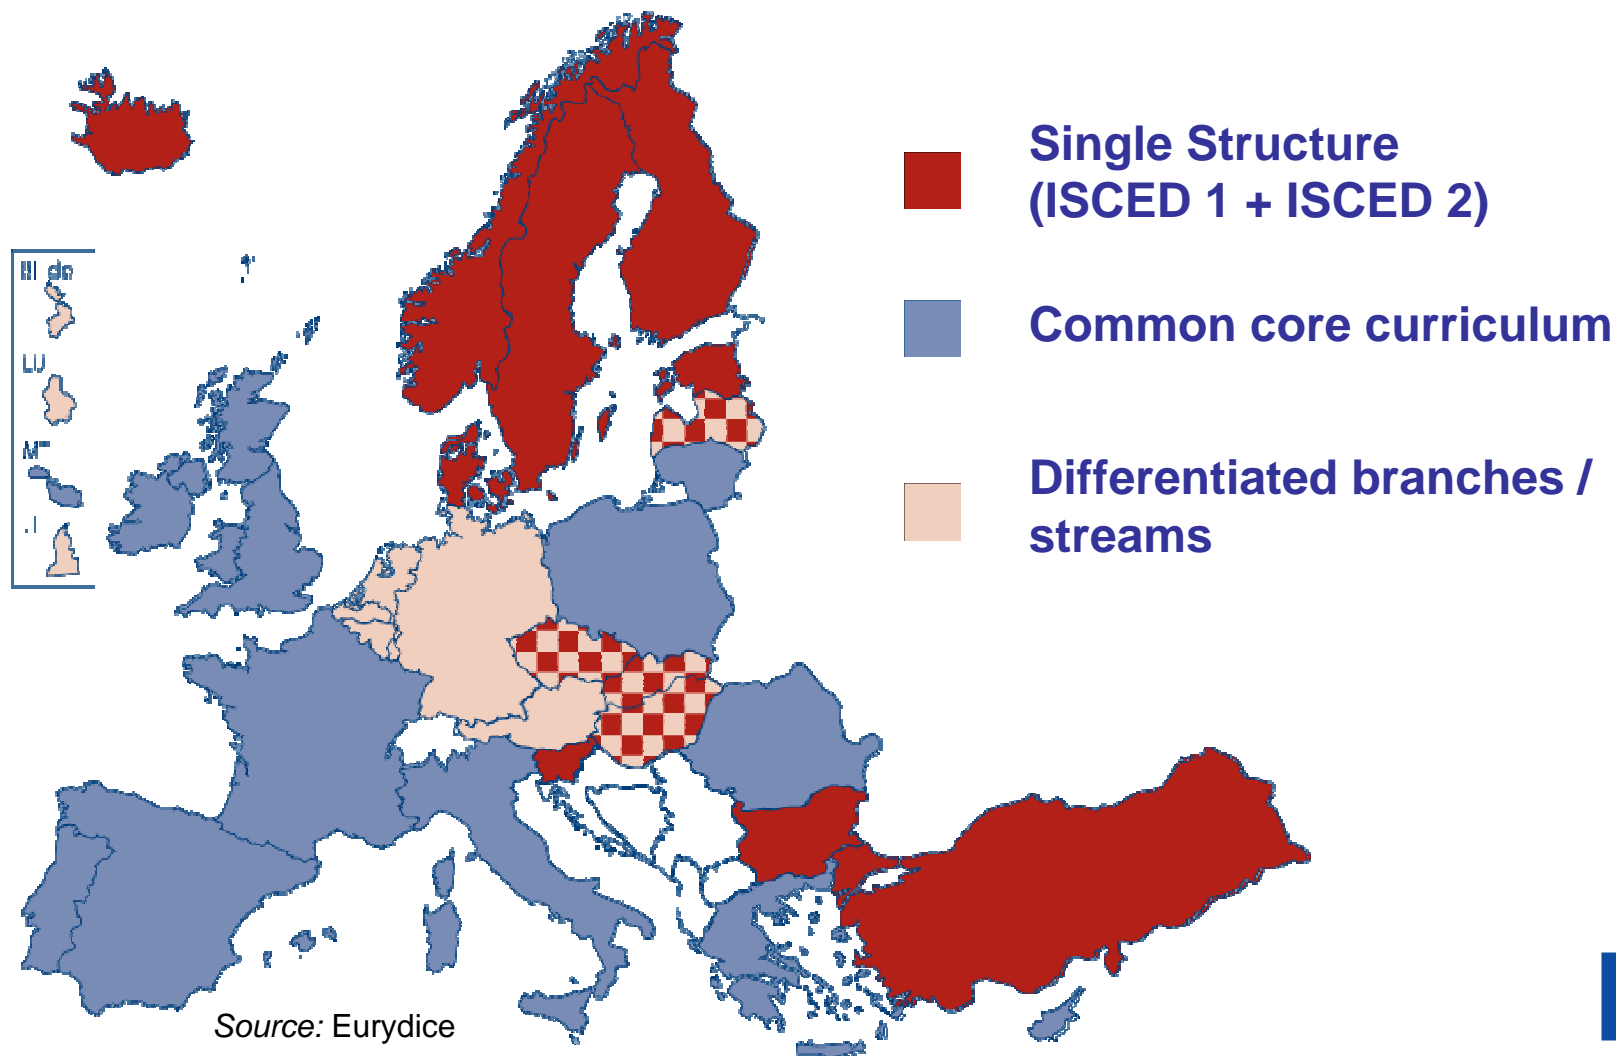

Participation in Education

- 108 million people or 19% of the EU population is enrolled in some form of education or training (ISCED 1 to 6).
- The participation of 4-year-olds in pre-primary education is increasing in almost all European countries.
- Compulsory full-time education lasts for nine or ten years and continues up to at least the age of 15 or 16.

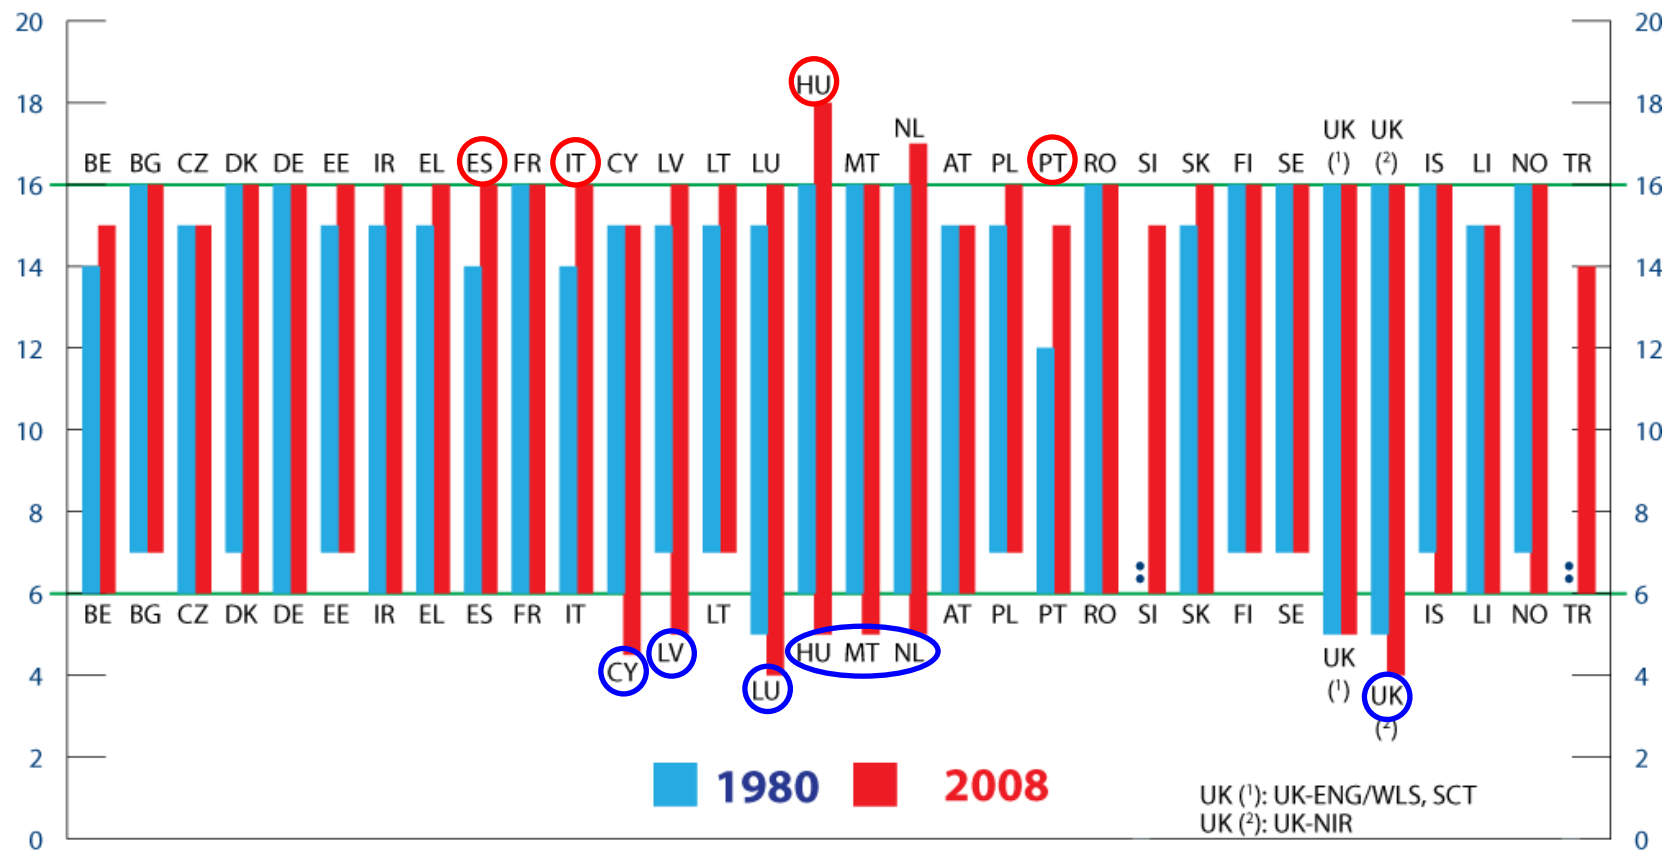

Main Models of Compulsory Education in Europe, 2006/07

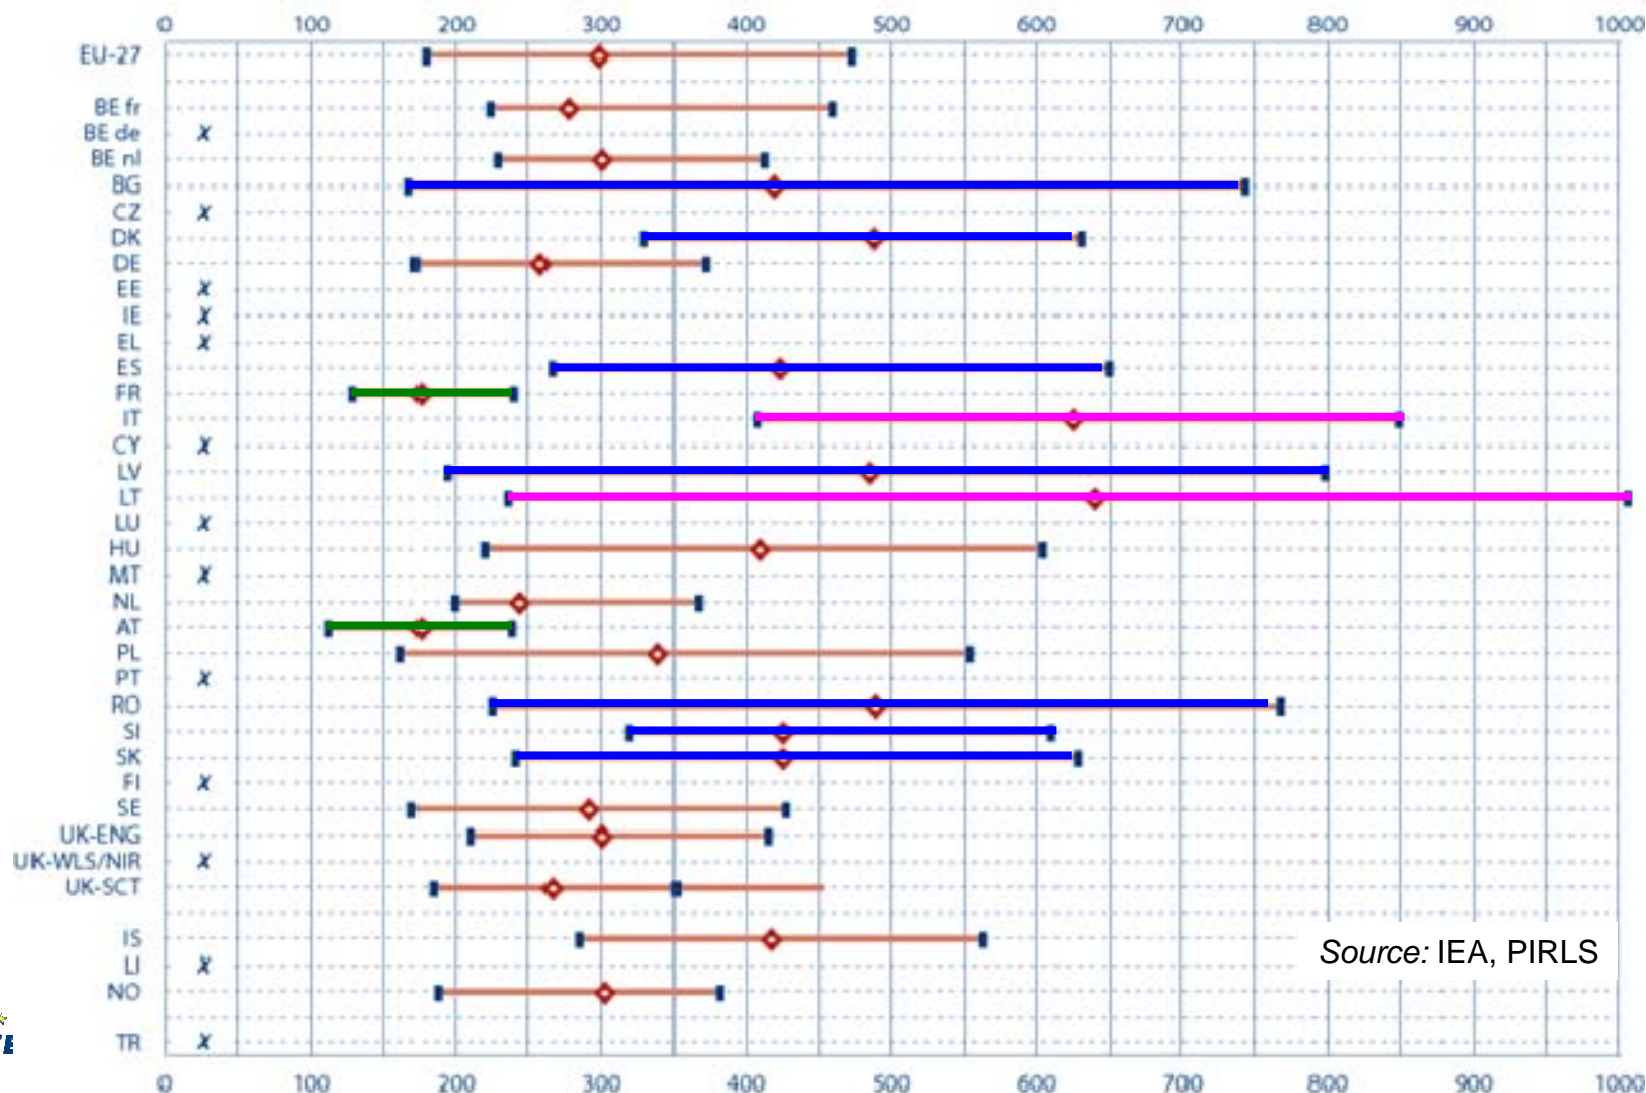

Duration of full-time compulsory education in Europe 1980-2008

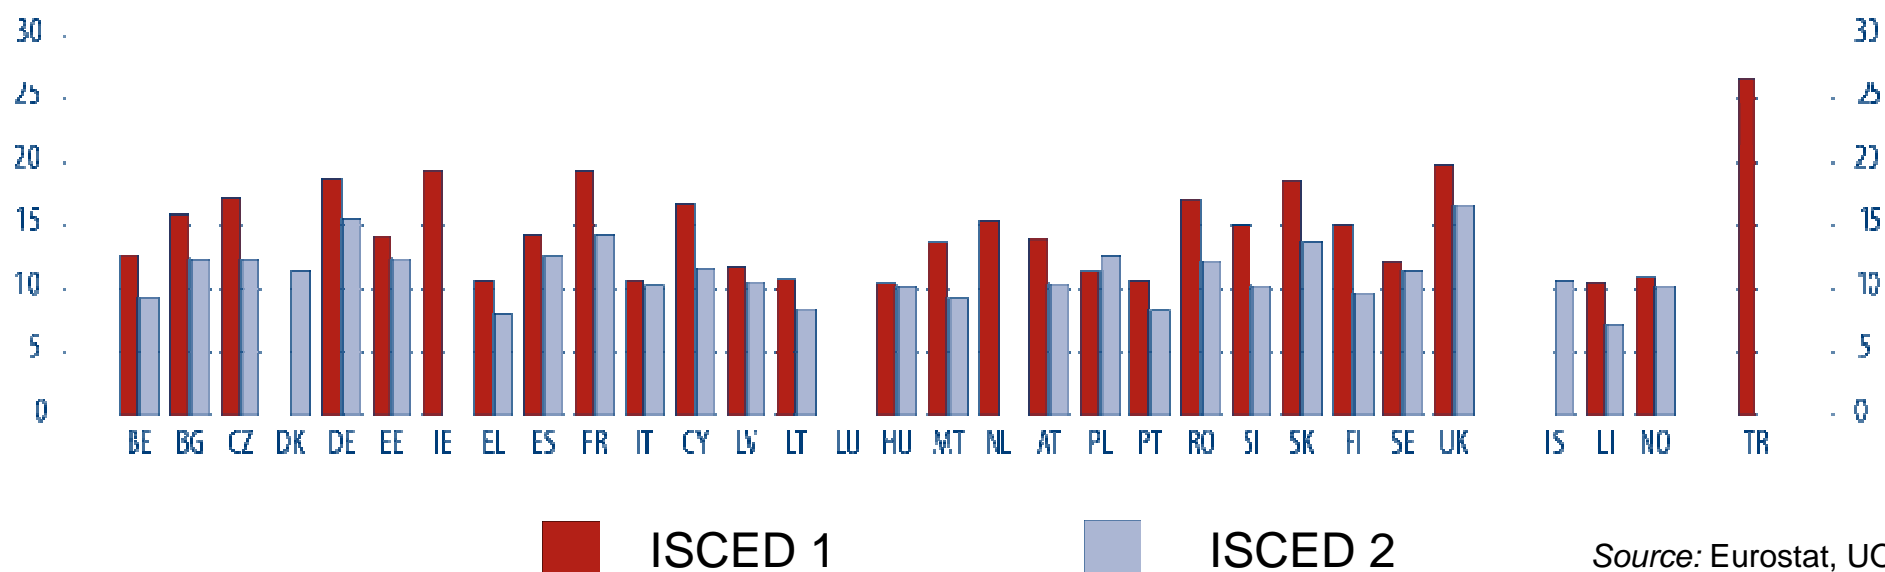

Distribution of pupils in the fourth year of primary education by size of school attended, 2006

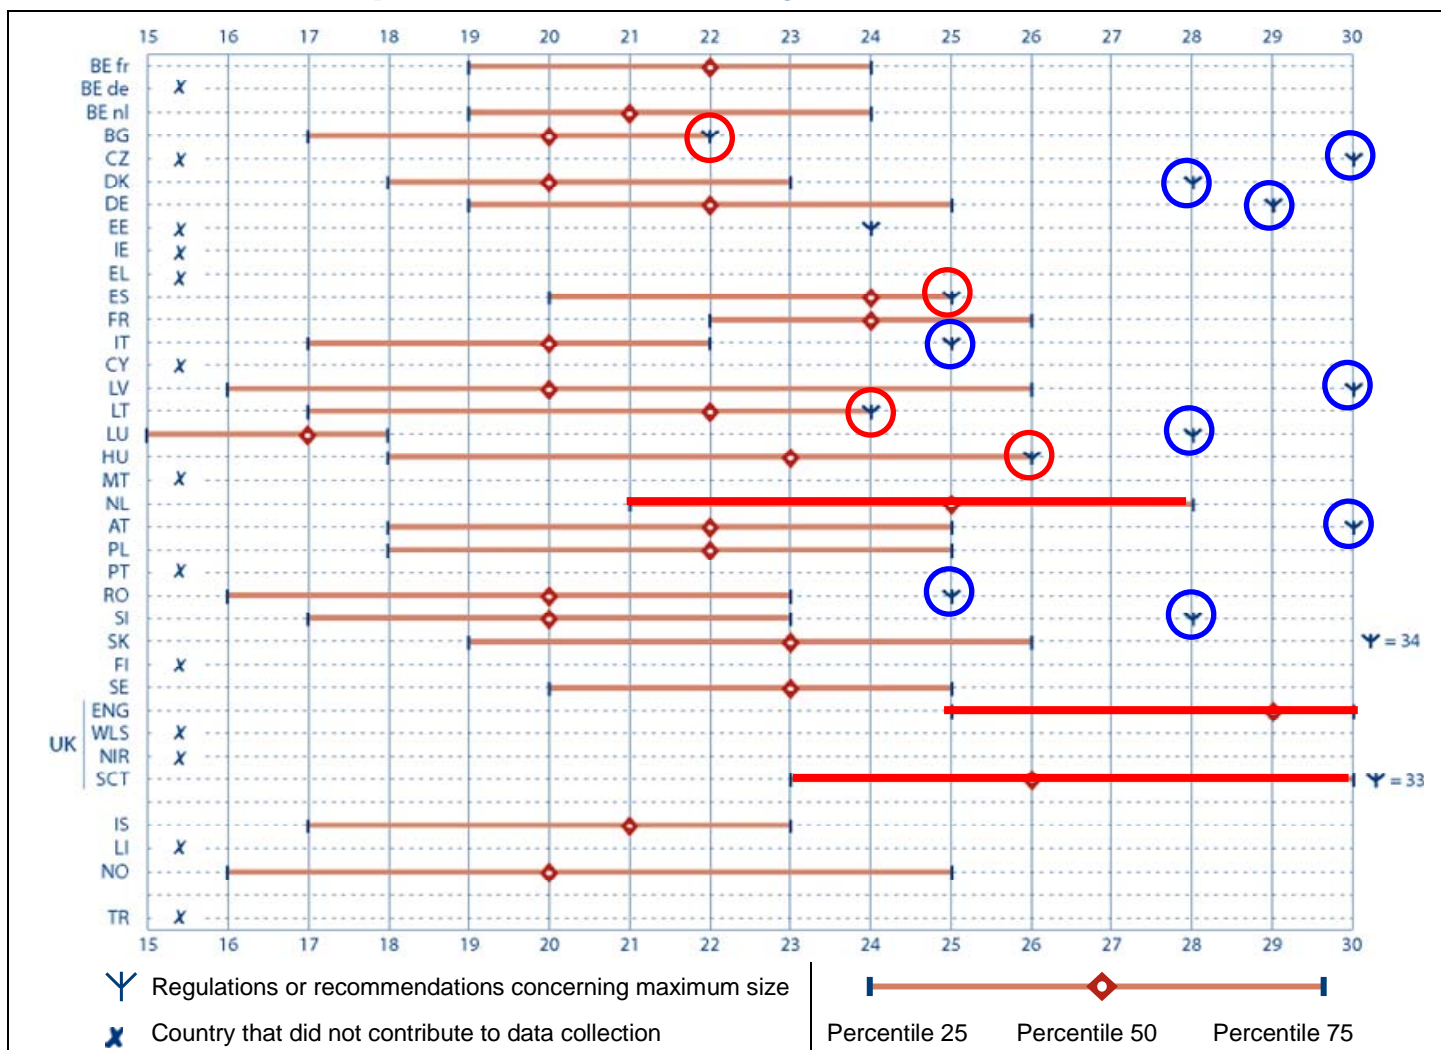

Ratio of pupils to teaching staff in primary and lower secondary education (ISCED 1 and 2), 2006

Source: Eurostat, UOE

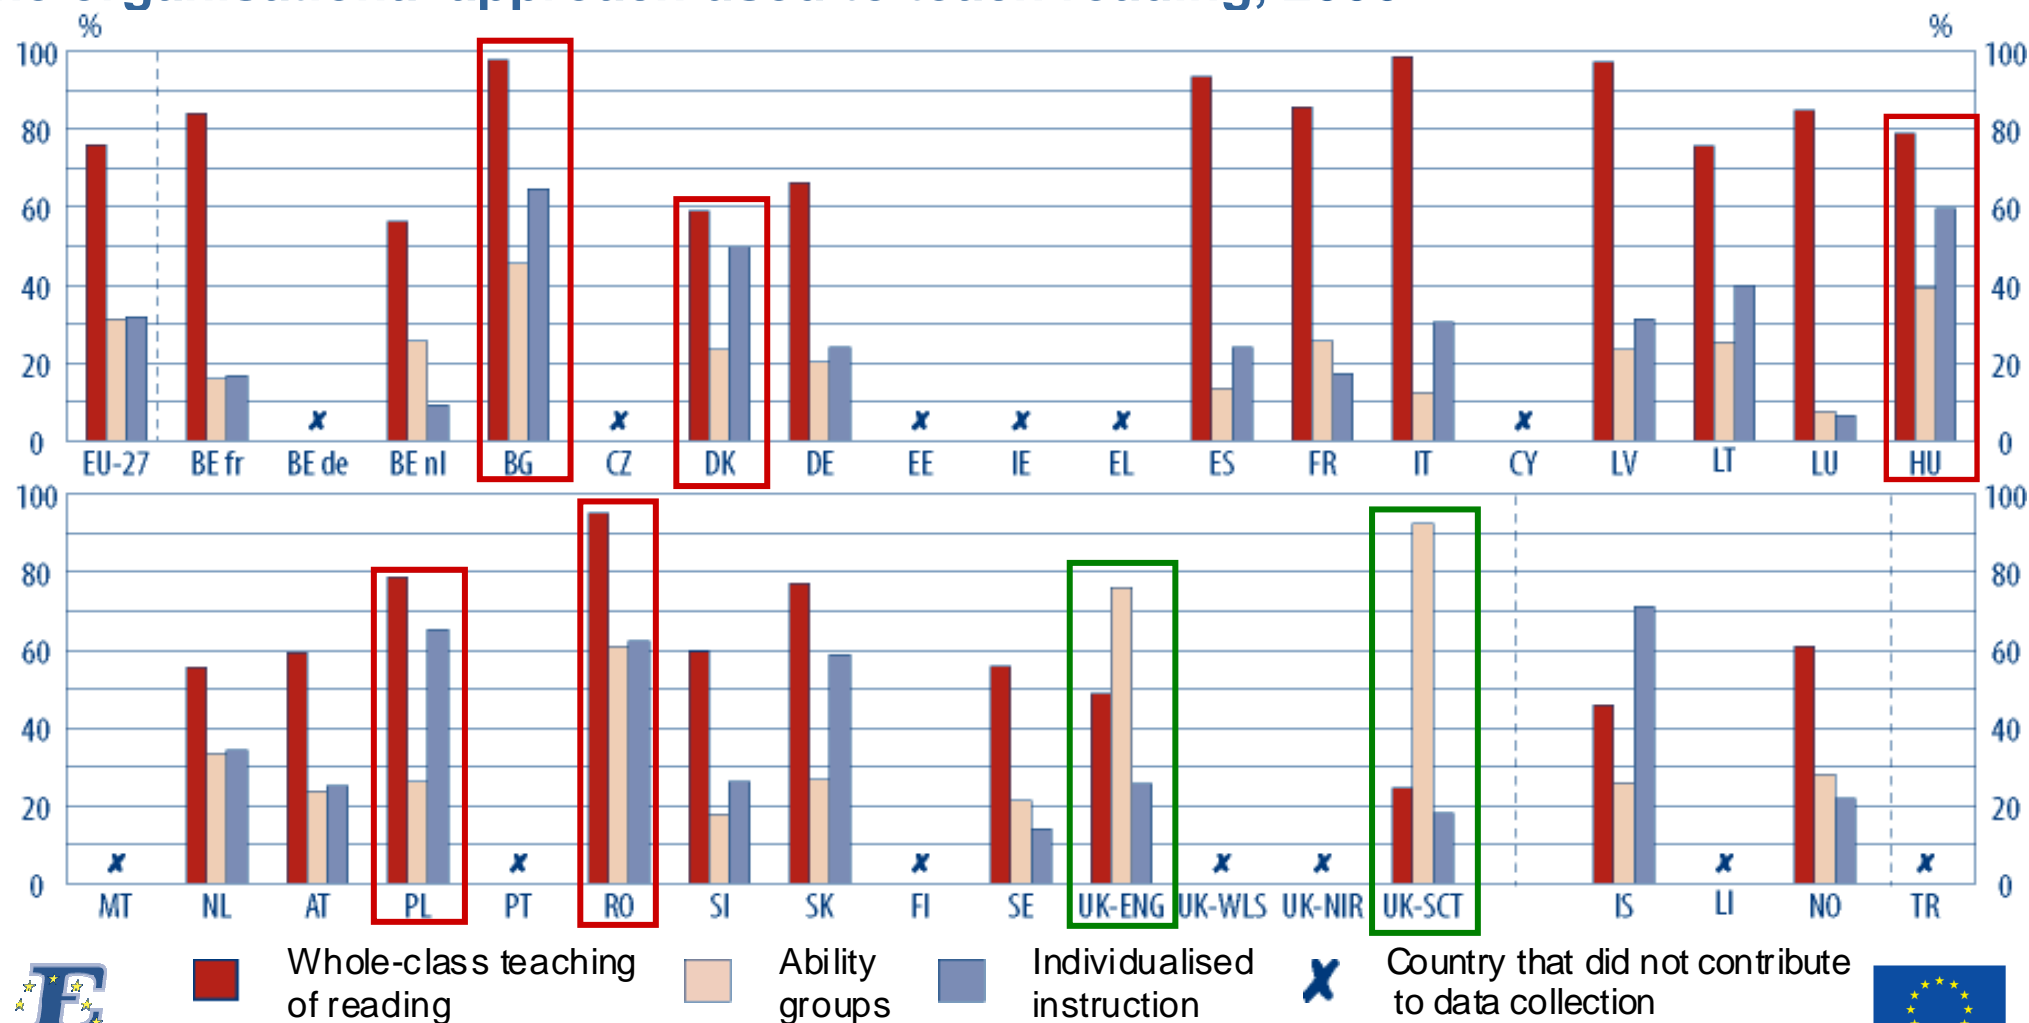

Distribution of pupils in the fourth year of primary education with respect to the size of their class, compared to officially recommended maximum sizes, 2006

Source: IEA, PIRLS

Breakdown of pupils in the fourth year of primary education in accordance with the organisational approach used to teach reading, 2006

School Autonomy

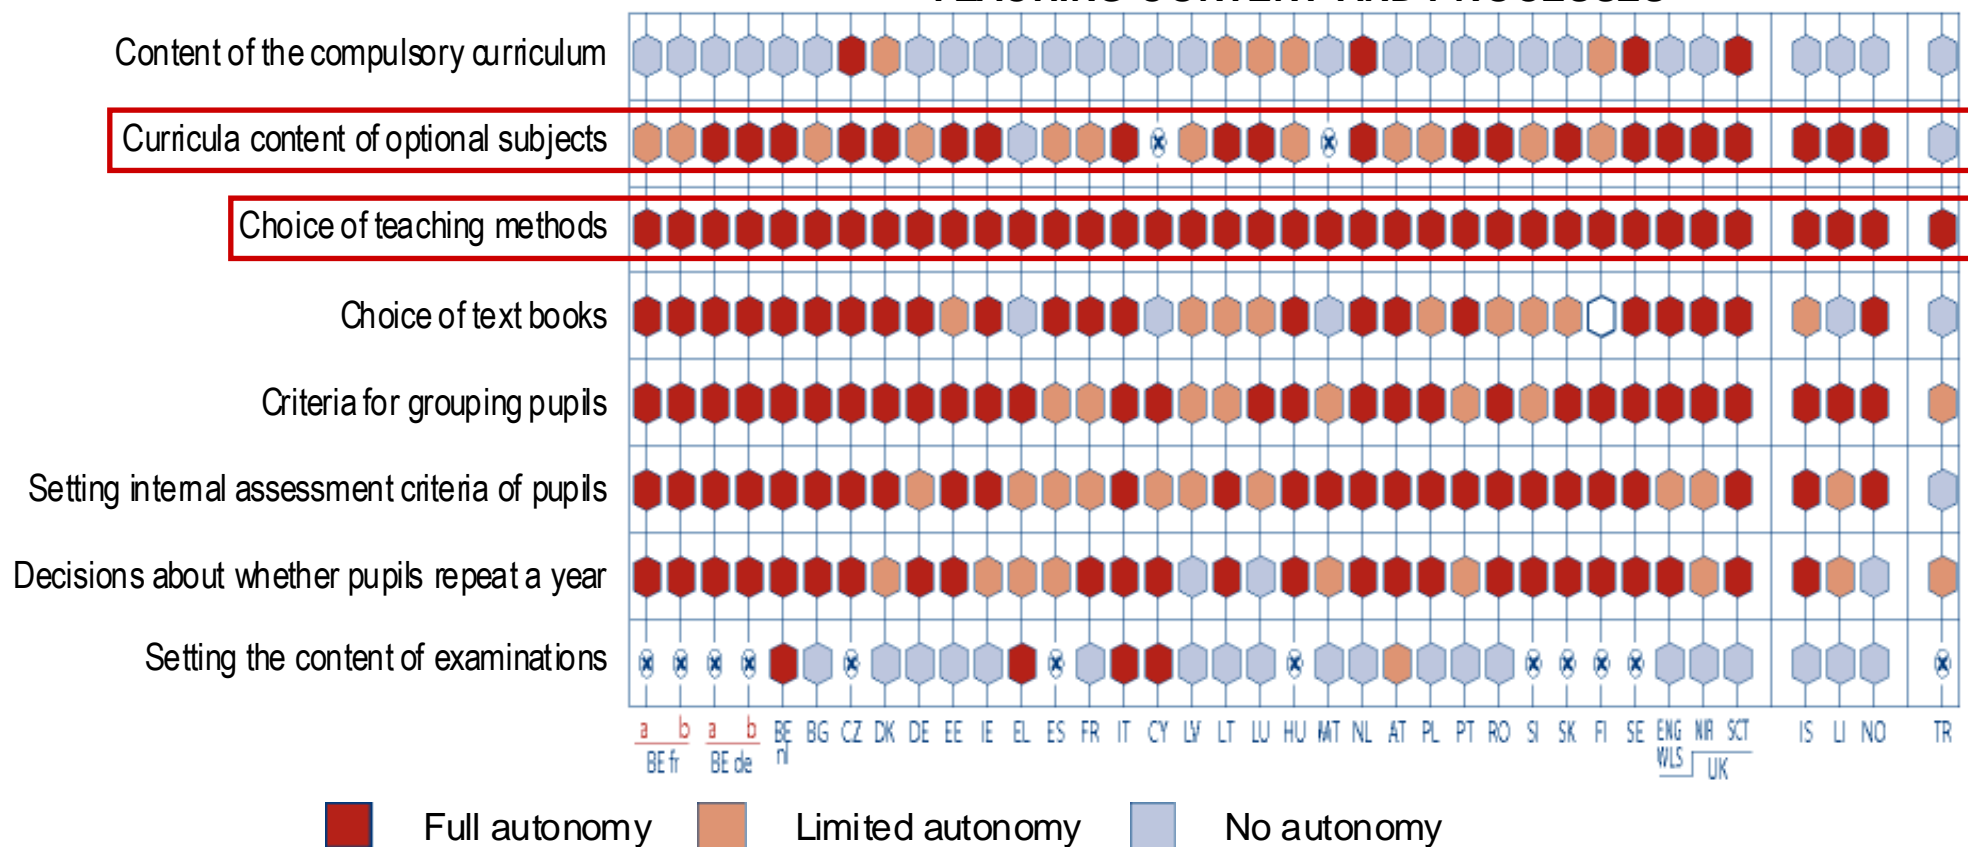

- Increasing policies for school autonomy are leading to more responsibilities for schools, school heads, teachers and parents.
- More freedom for schools and teachers in order to improve the quality of education.
- Increase in the use of standard criteria for evaluation.
- Growth of national systems for student assessment through standardised tests.

School autonomy regarding the teaching content and processes in primary and lower secondary education, 2006/07

TEACHING CONTENT AND PROCESSES

Full autonomy

Limited autonomy

No autonomy

Decision-making powers may be delegated by the local authority
